ReTool Service	Standard Coatings	
Square Cutters: Standard ReTool consists of grinding flutes, OD, end face, and chamfer. Any variation of this should be entered in the details section for that line item. Bull Nose Rougher: Standard ReTool consists of grinding OD, end face, and radius. Any variation of this should be entered in the details section for that line item. Corner Radius Finisher: Standard ReTool consists of grinding corner radius and end face only. Corner radius finishers can be sharpened complete (flutes, OD, CR, end face). Please specify if you would like them ground complete in the detail section for that line item. Ball Nose Cutters: Standard ReTool consists of grinding end face only. If flutes are too damaged, the cutter will not be sharpened. *Cylindrical OD grind can be put on cutters designed for aluminum for an additional charge. Please specify if you would like the cylindrical OD in the details section of that line item.	Celero (TiB2)	Duro-S (AlTiN)
	Polychrom (TiAlCrN)	Unicut-4X (TiAlCN)
	X-AL (TiAlN/AlCrN)	TiAlN
	TiN	ZrN
	Premium Coatings	
Duro-Si (TiSiNoS)	Duro-V (AlTiSiN)	
*Other coatings may be available upon special request.
