for precision

fraisa

Improved wear resistance for up to **30% longer tool life**

**FRAISA –** Your technology partner for milling processes

# DURO-SE – the new high-performance coating

- Seven tool families with **DURO-SE**: SX, Multicut XF, HX, Corner radius end mill HX, XFeed-H, XSpeed-H, SpheroX
- Same geometry, same application data
- No reprogramming, no adjustments, productive immediately
- Broad range of materials – stainless steel, titanium, nickel alloys, and hardened steels up to 70 HRC

- **Up to 30% longer tool life –** more parts per tool
- **Process-reliable –** consistent performance
- **No built-up edges –** clean surface finishes
- **Plug-and-play cutting data**
- **Consistent component quality –** fully reproducible
- **Sustainable thanks to FRAISA ReTool®**
