

## Multifunctional high-performance milling of aluminum: Additions to the range in the Ø 4 and 5 mm categories

**FRAISA** – Your technology partner for  
milling processes

Articles 8565/8665 and 8575/8675

### MFC Alu

- ▶ New tools with Ø 4 and 5 mm
- ▶ Normal and medium-length designs
- ▶ High performance thanks to z4
- ▶ High gloss-ground flutes
- ▶ Constant l/d ratios
- ▶ Increasing core diameter
- ▶ New high-performance penetration edge
- ▶ Smooth transitions
- ▶ Precise supporting chamfers
- ▶ Internal cooling channel
- ▶ Corner radius

✓ Maximum chip removal  
rate, reduced production  
costs

✓ Outstanding surface and  
component qualities

✓ Multifunctionality for the  
production of small  
components

✓ Shorter machine  
setup times for  
fast application

✓ Optimal cutting data in  
the FRAISA ToolExpert®

✓ HDC capable and  
process reliable
