Process-safe milling of soft steel at the highest level

FRAISA – Your technology partner for
milling processes

Articles K8430/K8330 and K8440/K8340

SteelCut

- ▶ Edge-strength fine grain carbide
- ▶ Cutting-edge preparation
- ▶ Chip breaker
- ▶ Finely ground chip flutes
- ▶ Special partially polished blade
- ▶ New penetration edge
- ▶ MULTICHROM
high-performance coating
- ▶ Increased core diameter
- ▶ Positive, easy-cut geometry
- ▶ Corner radius

Perfect for plunging, HPC,
HDC and finishing

Broad application and
material range

Optimal chip formation and
good chip removal

Perfect application
data in the
FRAISA ToolExpert®

High tool stability and
resistance
