

passion
for precision

Perfect finishing:
Maximum **precision**
and **process reliability**

FRAISA – Your technology partner for
milling processes

Article P8358, P8460/P8360 and P8370

E-Cut finishing cutter

- ▶ Edge-strength fine grain carbide
- ▶ Optimized neck transition
- ▶ Chip breaker system
- ▶ Special partially polished blade
- ▶ POLYCHROM high-performance coating
- ▶ High-gloss technology (finely ground surfaces)
- ▶ Ø 1–20 mm, number of teeth z4–z8
- ▶ Consistent l/d ratios
- ▶ Corner radius

Perfect surface qualities thanks to optimized cutting edges

Maximum dimensional accuracy – ideal for precision components

Maximum stability and process reliability – even with small diameters

Minimal burr formation and significantly extended service life

Sustainable thanks to FRAISA ReTool® Services

Perfect application data
