

passion
for precision

The new universal
high-performance drill for
maximum productivity

FRAISA – Your technology partner for
(semi-) automated drilling

Supradrill® spiral flute drills

- ▶ Newly designed cutting edge rounding for robust, reliable cutting performance – reduces micro-breakaways
- ▶ Optional with clamping flat
- ▶ Chip smoothing reduces friction and ensures reliable chip evacuation
- ▶ High-performance Nano-U² coating and HM MG10 carbide for high thermal resistance and uniform wear
- ▶ Extensive range with 183 sizes: 5xd, Ø 3–20 mm, in convenient 0.1-mm increments

new!

Up to 30% higher
productivity

Plug-and-play
cutting data

High hole quality – clean &
dimensionally accurate

Best performance and
process reliability

Fewer tool changes, lower
energy consumption
