

To our customers

What the FRAISA Group is doing regarding the COVID 19 virus

Dear Sir or Madam,

The FRAISA Group has set up a crisis team to discuss and define protective measures for our group of companies and our staff, and to keep these measures up to date with the latest findings. So we're doing everything we can to protect our staff against this infectious disease.

This will also mean giving our production sites the best possible protection, and we hope they will be kept safe from the virus so that we can keep serving your needs as your supplier.

Our measures will cover our production facilities as well as our international supply chain. But at the moment we don't think anything will impact our supply chain negatively.

Our website www.fraisa.com will tell you more about the various rules and measures that apply.

Thank you very much for your loyalty and we wish you all the very best in this challenging time.

Best regards,

Thomas Nägelin
